Dave Rooney,

I write to confirm that the reporting of the minutes accurately reflects the exchanges and dialogue associated with the discussion surrounding the Phase 2 project and in particular the size of the hall.

Contained within the minutes of 30th September 2016, item 4.3, there is an explanation of the hall size and general agreement of the need for the larger space.

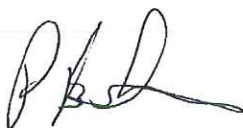

Further to this the minutes of 17th October 2016 note:

Item 3.1 - agreement is confirmed of the need for the additional and larger hall by all those present; K McDaniel, D Rooney, P Reid, P Grover.

Item 4.2 – K McDaniel confirmed that although the funding shortfall was yet to be resolved, the proposed scheme should be submitted for a Pre App Planning consultation.

I trust the above clarifies your queries.

Kind regards
