Dear Dave - I understand you have a series of meetings today. I wanted to confirm that we are supportive of you having "quality" space and will share the downside risk of ultimate tender prices with you. I understand you can put ~£50,000 "at risk" with RBWM taking the balance of the competitively tendered price risk over and above our currently approved spending limit. This is of course subject to our formal approval process.

You have a wonderful school, and in expanding choice for parents RBWM will ensure you have the quality of space your pupils and staff deserve.

Regards. Simon
