store opens

**2012**  
4G launches in the  
UK, enabling  
internet  
everywhere

**2024**  
89% of 12-year-olds own a  
smartphone, permanently  
connected to the internet  
via 4g/5g

2024

# THEY'RE NOT REALLY 'PHONES' AT ALL

## MOBILE PHONE

Make calls, send texts, play Snake

## POCKET SUPERCOMPUTER

24/7 access to the internet in your pocket

## PARENTS WISH THINGS WERE DIFFERENT

**94%**

of primary school  
parents think  
smartphones  
are harmful

Parentkind nationwide poll of 2,496  
people, April 24

**70%**

of parents believe  
smartphones  
negatives impact  
family life

HMD poll of 10,000 parents, June 24

**33%**

of parents of children  
with smartphones have  
cried over their child's  
phone obsession

HMD poll of 10,000 parents, June 24

# YOUNG PEOPLE WISH THINGS WERE DIFFERENT

**67%**

of 16-18 year olds  
think smartphones  
are harmful

Parentkind poll, 2024

**1 in 5**

of 16-18 year olds  
have felt “life is not  
worth living” due to  
social media

Parentkind poll, 2024

**50%**

of teens say they are  
“addicted” to social  
media

Millennium Cohort Study, 2024

# YET SMARTPHONES HAVE BECOME THE NORM

**25%**

of 5-7 year olds  
in the UK own their  
own smartphone

**89%**

of 12 year-olds  
in the UK own their  
own smartphone

SOURCE: OFCOM Children and Parents: Media Use and Attitudes April 24

# EVERYONE'S GOT ONE BECAUSE EVERYONE'S GOT ONE

Most parents believe smartphones are harmful, yet almost all children have them by Year 7

Because resisting peer pressure becomes almost impossible when children's social lives migrate online

*The powerful network effects of smartphones and social media mean parents and young people feel like they have no choice*

# The only winners are the tech companies

*The status quo only benefits the most powerful companies on the planet - who make billions from capturing our kids' attention*

**Push  
notifications...external  
trigger becomes an  
internal trigger over time**

*"Creators of apps use every  
trick in the psychologists'  
toolkit to hook users...  
their desires are being  
hacked and their actions  
are being manipulated"*  
Jonathan Haidt

**Increased  
likelihood of  
remaining  
engaged -  
scrolling, posting  
etc**

**Engage with  
the  
notification  
to open the  
app**

**An interaction -  
a post  
engagement, like  
or comment -  
deliberately may  
be positive or not**

The Hook Model is used by app and web designers to guide them through the loop they need to create if they want to build strong repetitive habits in users.

When children first started getting smartphones in the early 2010s we didn't understand their impact.

Now we do, and the evidence is overwhelming.

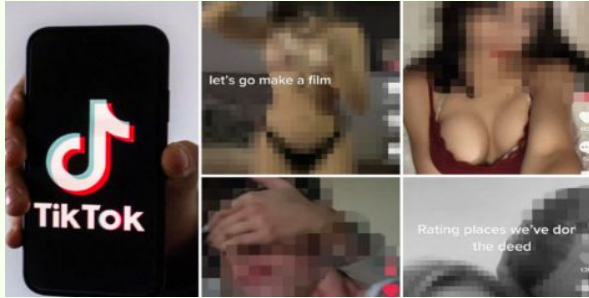

**So what exactly  
*is* the problem?**

# The three major concerns

## CONTENT

Smartphones are gateways to extreme content and viewpoints that we'd never expose children to in real life.

## CONTACT

Sites like TikTok, Snapchat and Roblox are used by sexual predators to target children with their first smartphones.

## TIME

Smartphones are fundamentally changing childhood - distracting children from engaging in real world activities.

# Smartphones are rewiring childhood

Daily Avg Time with Friends (minutes)

**35 hrs**

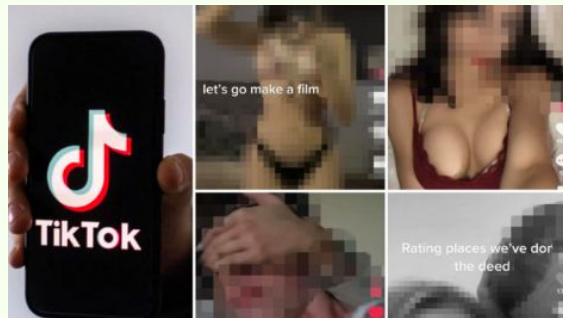

the average time  
British teens spend  
on their smartphone  
per week

# SMARTPHONES EXPOSE KIDS TO HARMFUL CONTENT

Having unrestricted access to the internet in your pocket creates a gateway to extreme content and viewpoints that we'd never dream of exposing children to in real life.

Hardcore pornography, extreme political views, sexualised and violent imagery, trolling and material promoting suicide, self-harm and eating disorders have become part of the fabric of modern childhood.

## 51%

of UK 11-13 year-olds  
have seen hardcore  
pornography online

British Board of Film Classification Report, March 2022

## 75%

of UK 15 year olds  
questioned had been  
sent beheading videos

Digital Childhoods, children's commissioner report, 2022

## 90%

of girls and 50% of boys  
say they are sent  
unwanted explicit content

Ofsted review of sexual abuse in schools, 2021

# SMARTPHONES ARE FUELLING A MENTAL HEALTH CRISIS

Rates of depression, anxiety, self-harm and even suicide among teens have all dramatically spiked globally since 2010 – when children started getting smartphones.

A 2023 global study of 27,969 young adults from Sapiens Labs showed that the younger they got their first smartphone, the worse their mental health today.

## 3x

Teens with problematic smartphone-use are twice as likely to have anxiety and three times as likely to have depression

King's College London, 2024

## 1 in 5

UK 16 to 18 years olds say that their social media has made them feel that 'life is not worth living'

Parentkind Poll, 2024

## 53%

The number of children referred to emergency mental healthcare in England has soared by 53% in three years

Royal College of Psychiatrists, 2024

**“The mental health crisis among young people is an emergency. It is time to require a warning label on social media platforms.”**

**Dr Vivek Murthy**  
US Surgeon General, 2024

**“We’ll look back in 20 years  
and be horrified by what our  
children were exposed to”**

**Dame Rachel de Souza**

Children’s Commissioner for England, 2022

# SMARTPHONES APPS ARE ADDICTIVE BY DESIGN

Tech companies spend billions on making apps and devices as addictive as possible because ‘maximising engagement’ is the fundamental objective of their business model.

So it's little wonder that many children are routinely ‘spending six, seven, eight hours a day on social media – often more’ (Ofcom, 2024).

**46%**

of teens say they  
use the their phones  
“almost constantly”

Pew Research Centre, Aug 2022

**29 hours**

Per week is the average  
British 12-year-old now  
spends on their smartphone

Childwise Monitor Report, 2021

**2 in 3**

of 11-17 year olds ‘often’  
or ‘sometimes’ find it  
difficult to put down  
their phone

Common Sense Media, 2023

**“Behind every screen on your phone, a thousand engineers have worked to make it maximally addicting. Children are particularly susceptible to this kind of manipulative design.”**

**Aza Raskin**

Co-inventor of ‘infinite scroll’, turned campaigner

# SMARTPHONES ARE FUNDAMENTALLY CHANGING CHILDHOOD

Smartphones are experience blockers, distracting children from engaging in the real world activities and connections that are crucial to healthy childhood development.

The opportunity cost to childhood is profound. The average UK 12 year-old now spends over four hours per day on their smartphone, displacing the kinds of activities that have shaped childhood for millennia.

Daily Avg Time with Friends (minutes)

**43%**

of US teenagers waking minutes  
are spent on screens

Gitnux Marketdata Report, Jan 2024

**30%**

Since 1975, the daily average time  
children spend playing outdoors  
has fallen by 30%, while  
screen-based activities have  
risen 23%

Zach Rausch - Mullan 2019

**65%**

The daily average time that  
teenagers spend with friends  
has plummeted by 65% since 2010

American Time Use Study

**“When kids are on their phones all day, it’s not just what they’re doing on the phone that matters — it’s what they’re not doing. They’re missing out on crucial experiences that help them grow into healthy adults.”**

**Dr Jonathan Haidt**  
Professor of Social Psychology, NYU

~Susie

In the last decade there have been 70% less outdoor accidents and 93% more incidents of self harm in children... as a GP I can promise you it's much easier to mend a broken bone than a broken mind.

24

Dr Susie Davies, founder of Papaya Parents, citing NHS DATA

# What are we losing?

OnSide: Generation Isolation

**Less time  
outdoors**

**Less time  
playing,  
reading &  
exercising**

**Less social  
interaction and  
face to face  
communication**

**More time  
scrolling,  
alone**

## SADLY, WE COULD GO ON

### SLEEP

Bedtime use of smartphones doubles children's risk of poor sleep

### BULLYING

84% of bullying now takes place on a device

### DISTRACTIONS

On average teens are bombarded by 237 smartphone notifications a day

### ARGUMENTS

55% of parents say their child's smartphone use causes big family arguments

### ROAD SAFETY

Mobile phone distraction is a major cause of road accidents involving children

### CRIME

500 children a day were mugged in 2020 in the UK, almost all for smartphones

# It's little wonder that many of the people who created this technology keep it away from their kids

STEVE JOBS

“We don’t allow the iPad in the home. We think it’s too dangerous for them”

EVAN SPIEGEL

Grew up without a TV and credits his own success on that tech restriction. Limits his kid to 1.5 hours screen time per week

BILL GATES

Didn’t allow his 4 children smartphones or their own computers until they were 14

# Parents are in an *impossible* position

# BECAUSE OUR 'CHOICE' ISN'T REALLY A CHOICE AT ALL

## Either we...

Give our children access to a product that we know to be harmful.

## Or we...

Risk alienating them from their peers at a crucial stage of their development.

***IT'S A LOSE-LOSE; FOR PARENTS, FOR CHILDREN & FOR SOCIETY***

**LEADERS ACROSS THE WORLD ARE THINKING ABOUT  
HOW TO LEGISLATE TO PROTECT CHILDHOOD**

**BUT PROPER REGULATION OF BIG TECH WILL TAKE  
YEARS, AND WE DON'T HAVE TIME TO WASTE**

**The solution is to  
work together**

Saying no can feel impossible when you're acting alone. Acting collectively makes it infinitely easier.

# **WE'RE NOT ANTI-TECH, WE'RE PRO-CHILDHOOD**

Technology has immense benefits, and young people should be able to enjoy the opportunities it creates – when they're ready and when it's safe to do so.

But childhood is precious and fleeting. All children should have the opportunity to learn, develop and grow free from the addictive-by-design algorithms and age-inappropriate content of social media and smartphones.

# OUR RECOMMENDED APPROACH

- Simple phone until Year 9
- Delay social media until 16
- Internet & WhatsApp access via a shared family computer
- Track with an Airtag if you want to know where they are

**SMARTPHONE**

**SOCIAL MEDIA**

**SIMPLE PHONE**

**FAMILY COMPUTER**

# PARENTAL CONTROLS AREN'T THE SOLUTION

- Even the most tech-savvy parents struggle to manage parental controls
- Some apps require updates to hundreds of settings to make them age appropriate
- Even if your child's phone has parental controls, their friends may not so they may be sent inappropriate content regardless

**58%**

of teens say they've never had controls put on their phone by parents

(Parentkind poll, May 2024)

**47%**

of teens with controls in place say they have bypassed them

(Parentkind poll, May 2024)

And teens find multiple ways to bypass controls:

Performing a factory reset

Using VPN software

Hacking the WiFi router

Memorising your passcode

# **THE PARENT PACT** makes collective action simple

**The Parent Pact is an online tool that helps parents agree to delay with others in your community. The more of us who sign, the more powerful it becomes.**

Step 01.

**Select your region & child's school**

Select your region

Select school

Select school year

Name

Step 02.

**Sign the Pact to delay until the end of Year 9**

**Sign the pact >**

Step 03.

**View results for your region, school & class**

**National (UK)**

**71,077**

**CHILDREN**

**9,453**

**SCHOOLS**

# THE MOVEMENT IS GROWING ACROSS THE UK

# 92,120

Parent Pacts have been signed since  
launching in September

**We're all trying  
to do the best  
for our kids**

**“In a world where fast-changing technology is actually impacting the development of our children's brains, it is up to us to stand up for them, and their futures. If not us, then who?”**

St. Albans Heads group, May 2024

# WE'RE IN THIS TOGETHER

**Navigating the fast changing world of smartphones and social media is complex.**

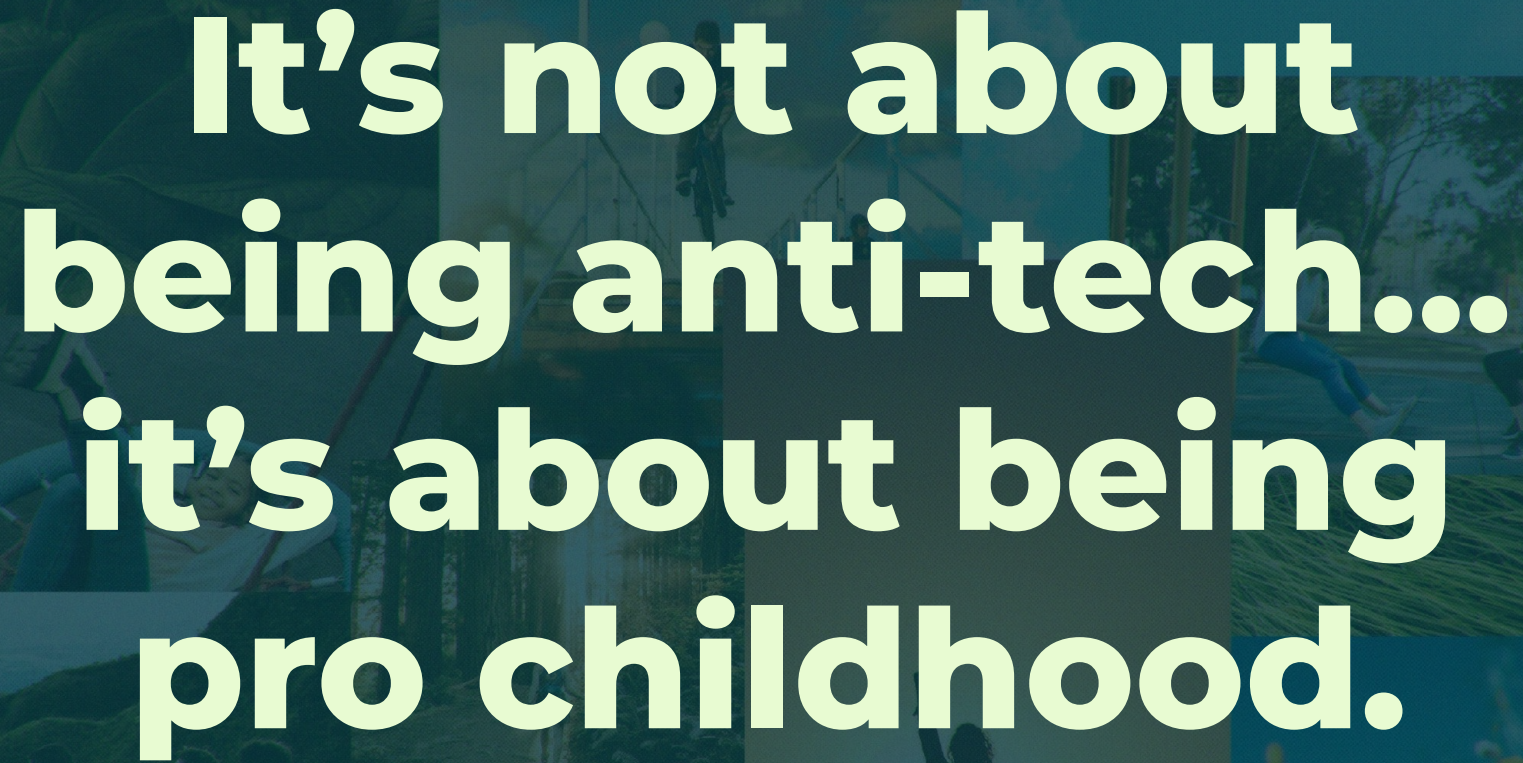

This stuff's tricky, the evidence is evolving fast, and every family is different.

Wherever you sit on the spectrum, or whatever decisions you've made for your children, we respect your position.

Every family will come to their own conclusions; we just want to open up a conversation about these issues.

It's a new frontier of parenting, and we're all in it together.

**It's not about  
being anti-tech...  
it's about being  
pro childhood.**

## COMMON CONCERNS

**I want my child to be tech savvy, I don't want to hold them back.**

- Digital literacy isn't achieved through smartphone use

**My child isn't safe walking to and from school without a smartphone.**

- A non smart phone can enable your child to communicate with you in an emergency.
- Tracking can often erode trust and personal responsibility in children, making them more vulnerable when unsupervised.
- AirTags or similar can help track your child.
- Majority of children walk to and from school from the leisure centre - which is heavily supervised by both staff and the school community.
- Smartphones often make children *less* safe walking to school.

**My child needs a smartphone to stay connected to their friends, otherwise they will be socially isolated.**

- This is not proven to be the case
- Meaningful and healthy friendships are rooted in real connections and communication

# Online Safety

## Parent Workshop

# School Curriculum

## Years 1 & 2

- identify what things count as personal information;
- identify what is appropriate and inappropriate behaviour on the internet;
- agree and follow sensible online safety rules, e.g. taking pictures, sharing information, storing passwords;
- seek help from an adult when they see something that is unexpected or worrying;
- demonstrate how to safely open and close applications and log on and log off from websites;

PSHE - bullying, online safety

## Years 3 & 4

- reflect on their own digital footprint and behaviour online;
- identify what is appropriate and inappropriate behaviour on the internet, recognising the term cyberbullying;
- agree and follow sensible online safety rules, e.g. taking pictures, sharing information, storing passwords;
- seek help from an adult when they see something that is unexpected or worrying;
- demonstrate understanding of age-appropriate websites and adverts;

NSPCC - Speak Out, Stay Safe

## Years 5 & 6

- protect their password and other personal information;
- be a good online citizen and friend;
- judge what sort of privacy settings might be relevant to reducing different risks;
- seek help from an adult when they see something that is unexpected or worrying;
- discuss scenarios involving online risk;
